

Kalamazoo Astronomical Society's

ECLIPSE SERIES

*Get ready for the April 8, 2024
Great North American Eclipse!*

www.kasonline.org

The next total solar eclipse in North America will occur on April 8, 2024. The Kalamazoo Astronomical Society will build excitement for this much-anticipated event with a series of special lectures and workshops.

We hope attending these free events will inspire you to travel to the path of totality and witness one of nature's grandest spectacles.

All events will be held on Zoom, while many will also meet live at the Kalamazoo Area Math & Science Center (KAMSC), located at 600 W. Vine St.

Nov. 3rd | 7:00 pm | KAMSC & Zoom
